

---

# Advanced Components Demo

Inspired by JasperReports, Eclipse BIRT & Pentaho

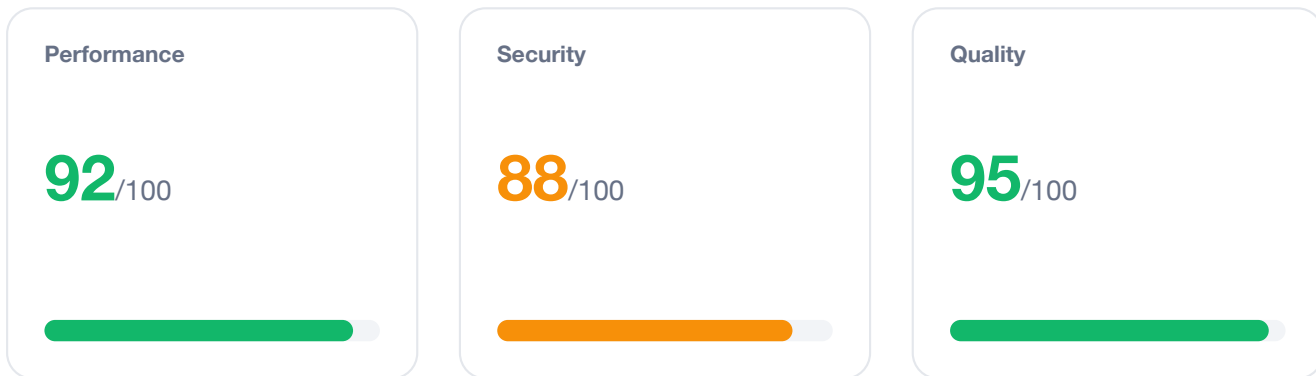

---

# List Component

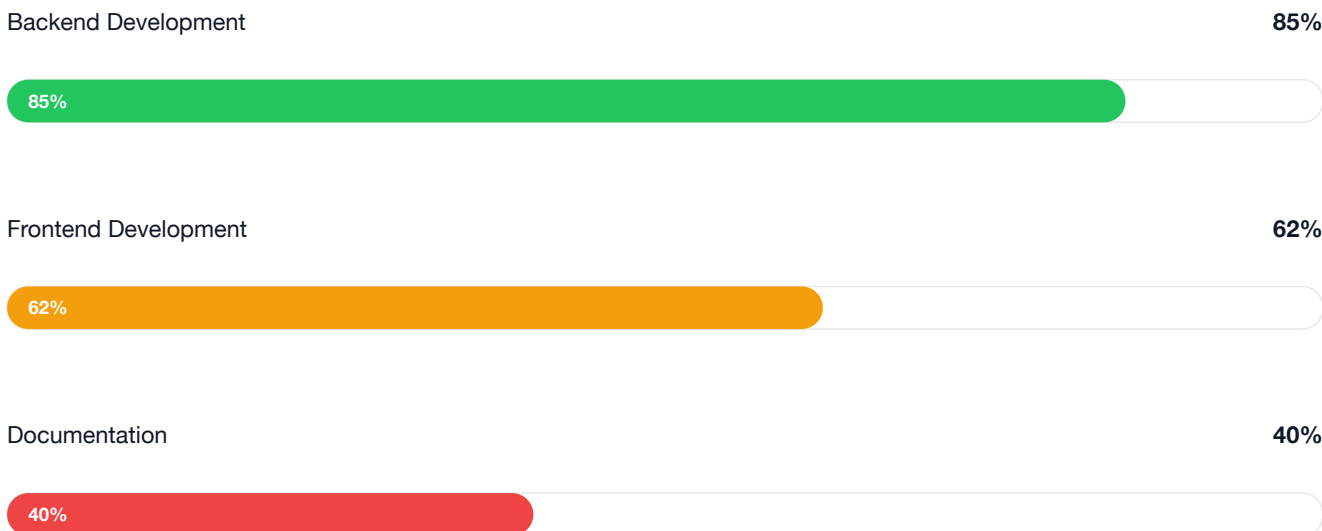

## Project Tasks

- ✓ Design database schema
- ✓ Implement API endpoints
- 🕒 Create frontend components
- Write documentation
- Deploy to production

# Grid Layout

# Progress Indicators

# Project Metadata

## Project Information

<b>Project Name</b>	RenderReport
<b>Version</b>	0.1.0
<b>Language</b>	Rust
<b>Status</b>	Active Development
<b>License</b>	MIT OR Apache-2.0

---

## Deployment Steps

1. Run tests: cargo test
  2. Build release: cargo build --release
  3. Run benchmarks: cargo bench
  4. Update documentation: cargo doc
  5. Publish to crates.io: cargo publish
